### **CONSUMER CONFIDENCE REPORT IS READY**

Water utility customers in the City of Norman will soon receive an insert in their utility bill with information concerning the 2013 Consumer Confidence Report (CCR) for the Norman Water System. This annual report is mandated by the United States Environmental Protection Agency (USEPA) to inform the public regarding water quality, consumer demand and methods of conserving water. Staff continually tests the water throughout the treatment process every day to ensure it meets the water standards set by the USEPA.

The Water Utilities Department considers the CCR our opportunity to make every Norman customer aware of the efforts to meet drinking water standards and provide exceptional water service every day of the year. We encourage consumers to become informed and help conserve our most precious resource...WATER.

An electronic version of this report is available at [www.normanwater.com](http://www.normanwater.com).

Paper copies of this report are available at City Hall or by contacting Geri Wellborn, City of Norman Water Treatment Division Senior Lab Technician, at (405) 321-2182 or [Geri.Wellborn@NormanOK.gov](mailto:Geri.Wellborn@NormanOK.gov).
